

What's New

Handy must-have items for sewing success

Bright Idea

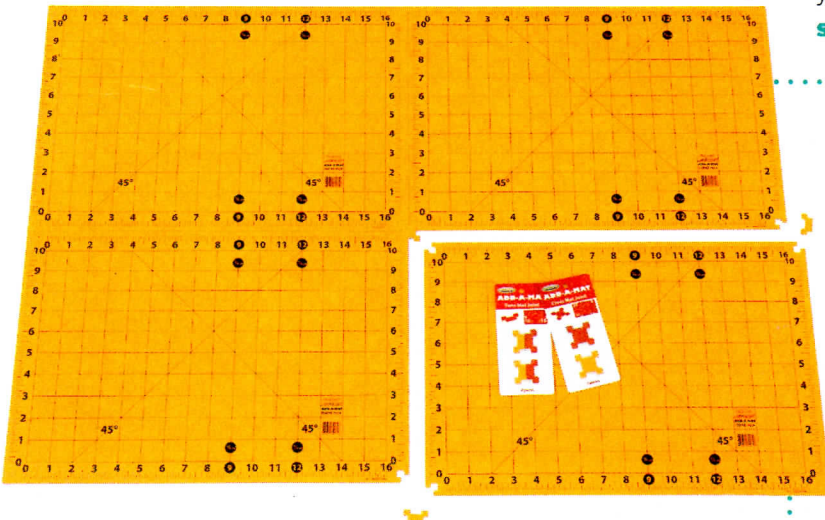

Three lights, one lamp! Choose warm for everyday calming activities like reading, natural for choosing colors under the purest form of white light possible, and cool soft light for late night projects to avoid eye strain. **Stella's Flex Arm** technology allows you to aim light wherever you need it. Comes in white or black. stellalighting.com

Take Note

Keep an inventory of your stash or just the fabrics you're using in your current project. **Swatch Buddies** come with adhesive strips for attaching fabric to the plastic cards and labels for the other side on which to write pertinent information. Take them along when you're shopping for the perfect coordinate.

Way to Grow!

The **ADD-A-MAT** system allows you to expand your cutting surface by smoothly joining mats edge to edge. Simply fit joint pieces into corner notches like puzzle pieces to give yourself much cutting area as you need. Mat sizes available: 12" x 18", 12" x 24", and 18" x 24". sullivans.net/usa

Hot Stuff

The **Sensor Velocity V200** has a unique built-in steam sensor that responds to the user's touch on the handle, and it continuously steams even at low temperatures. Its lightweight aluminum soleplate glides on all types of fabric. And it never spits or leaks!
